MEMORANDUM

To: Local Public Health Agencies (LPHAs)

From: Nicole Ortiz, Vaccine Manager, Colorado Immunization Section (CIS)

Date: February 26, 2014

Subject: 2014-2015 317 Influenza Vaccine

The VFC Program will be pre-booking adult trivalent Influenza vaccine with Section 317 funds. We will determine the number of doses each LPHA will be allocated based on county population estimates. Each LPHA will receive an email communication in August with the number of doses allocated to your LPHA. The VFC Program will ask counties to confirm if they want the allocated doses. The 317 influenza doses will be for adults 19 and older who are uninsured and underinsured.

Questions:

For questions regarding ordering and distribution, please contact Jason Hien, VFC Data Specialist, at: jason.hien@state.co.us or by phone at: 303-691-4950.
